Proposed Newsletter on Medical Topics

1. In reviewing Medical Supply Letter No. 1, certain questions were raised by this Office. 25X1A9a

25X1A9a 2. After discussing these questions with Messrs. [redacted] and [redacted] of your Office on 10 September, the following understanding was reached:

25X1A a. The medical supply procedure referred to in paragraph 4 will be limited to technical matters peculiar to medical activities and will not conflict with the [redacted] 25X1A

b. The medical catalogue mentioned in paragraph 5 is not being prepared by the Medical Office, but the Medical Office will forward to the Logistics Office a request asking that such a catalogue be compiled separately from the over-all Agency Supply Catalogue and establishing the justification therefor.

3. It would be appreciated if the findings of the reports requested in paragraph 4 of Medical Supply Letter No. 2 were forwarded to this Office for information when they become available.
